WORK EXPERIENCE

Codify Academy, San Francisco, CA

10/2016-present

Front-End Developer | Student Mentor

- I do QA, making sure programs run efficiently and smoothly.
- Work with students on projects using languages and frameworks such CSS, HTML, Javascript, Bootstrap, jQuery, Angular, helping them get a better understanding of Front-End.

Freelance Developer, San Francisco Bay Area, CA

1/2015-present

Front-End Developer

- I started using HTML to build website and applications from guides I found on the internet
 - CSS to add color, visual effects, and next level designs to websites and applications
 - Javascript to add functionality, make things move and disappear
 - Used frameworks and libraries like Bootstrap, Angular, jQuery, etc
-
